

## **Biobased Products Go Mainstream**

Biobased products are readily available across America. Go to [www.soybiobased.org](http://www.soybiobased.org) to access USB's searchable products catalog of soy biobased products from across America. Furthermore, here are a couple of examples of how soy biobased products are increasingly available in stores near you.

### **AutoZone**

[www.autozone.com](http://www.autozone.com) stores nationwide now offer [Nature's Broom](#) absorbent made from crop waste and soybean oil to clean up oil and chemical spills in shops and more.

### **Home Depot**

[www.homedepot.com](http://www.homedepot.com) now offers [Soy Seal™ for Gaps & Cracks](#) online as well as in many stores. This foam sealant is spray-applied using a straw, and is the first product from BioBased Insulation® available in the retail market for consumers. The product expands to fill and seal gaps and cracks, and reduces energy loss.
